Summary

Motivated Developer with hands-on experience in building full-stack web applications using the MERN stack. Skilled in designing secure authentication flows, RESTful APIs, and scalable backend systems, with a strong focus on clean architecture, performance, and real-world usability.

Technical Skills

Languages: JavaScript, C++, C, HTML/CSS

Frontend: React, CSS, Bootstrap

Backend: Node.js, Express.js, MongoDB, Firebase

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Additional: REST APIs, DSA, JWT Authentication, File Upload Handling (Multer), API Testing, Object Oriented Programming

Experience

AWS Cloud Trainee (AWS Academy Program)

June 2025 – July 2025

Medicaps University — Virtual Cloud Labs

- Implemented hands-on AWS labs using **EC2, S3, IAM, and VPC**, gaining practical exposure to cloud infrastructure, networking, and security fundamentals.
- Configured virtual servers, managed IAM roles and policies, and applied basic cloud architecture and scalability concepts in simulated real-world scenarios.

Projects

AbhiNik – Elevator Contract & Service Management System | *MERN, Firebase, Multer*

Apr 2025

Live Project Link - <https://abhinik.vercel.app/>

- Engineered a role-based MERN application with **2 user roles (Admin, Customer)** to manage elevator contracts, service schedules, and complaint workflows.
- Integrated Multer to handle **multi-file uploads (contracts, receipts, images)** within Firebase-authenticated and JWT-protected REST APIs.

CatchThePhish – Real-Time Phishing URL Detection System | *Python, Machine Learning, React*

Nov 2025

Live Project Link - <https://catch-the-phish-ml.vercel.app/>

- Developed a real-time phishing detection system using a Random Forest model trained on **~4,500 URLs**.
- Validated the system on **7,000+ URLs** and integrated it into a web interface and Chrome extension.

CapAdvisor – Personal Finance & Budget Tracking Platform | *HTML, CSS, Node.js, MongoDB*

Oct 2024

GitHub Repository - <https://github.com/AbhishekWarke/CapAdvisor>

- Built a full-stack finance platform for tracking expenses, loans, investments, and idle capital.
- Designed REST APIs and MongoDB schemas to support EMI calculations and financial summaries.

Education

Bachelor of Technology in Computer Science Engineering

Aug 2022 – 2026

Medicaps University, Indore

CGPA: 8.66 / 10

Certifications

- **Full Stack Web Development** — MERN stack, REST APIs, authentication flows, and database-driven applications.
- **Docker Fundamentals** — Core concepts of Docker images, containers, and environment isolation.

Extra-Curricular Activities

- Created an esports-focused YouTube channel with 40,000+ subscribers and over 15 million views, demonstrating long-term consistency and audience engagement. Produced 600+ videos.
